

LEASE IT THE WAY YOU LIKE IT

Take control of your lease with Direct ChassisLink Leasing (DCLL). With flexibility around equipment, chassis upgrades, chassis lease types, and more, you have the power to choose.

Lease with More Confidence

With DCLL, the power to decide how to configure your lease is in your hands.

- Select from refurbished, new build, or existing fleet chassis equipment
- Add GPS to any chassis for enhanced fleet tracking and visibility
- Choose your pickup location for convenient, quick access
- Select a lease length that best suits your business needs
- Optimize costs by choosing your lease structure

Net Lease

Choose a **Net Lease** and maintain and repair your equipment yourself for lower daily rates.

VS

Full-Service Lease

Opt for a **Full-Service Lease** with a Maintenance & Repair plan to leverage DCLL's expert field network and roll the M&R costs into your lease.

CHOOSE YOUR CHASSIS

The sizes you need, available for short and long-term leasing.
