

CHASSIS REFURBISHMENT PROGRAM

With our refurbished chassis, you'll get the lower maintenance costs associated with a new piece of equipment without paying new equipment prices.

Providing Motor Carriers with the equipment they need to get the job done is important to us. That's why we're investing millions in our chassis refurb program. Our team meticulously inspects each chassis and upgrades a comprehensive list of components that you care about.

NEW UPGRADED COMPONENTS

- Electrical receptacle
- Glad hands
- Air lines
- Brake hoses
- Electrical harness
- Slack adjusters
- Camshaft bushings
- Spring brakes
- Wheel clamps, studs, and nuts
- Emergency valve
- Inner and outer bearings and races
- Drums
