

How to View Reports on myDCLI

1. Go to myDCLI.com/login
2. Enter your email address and click Next.

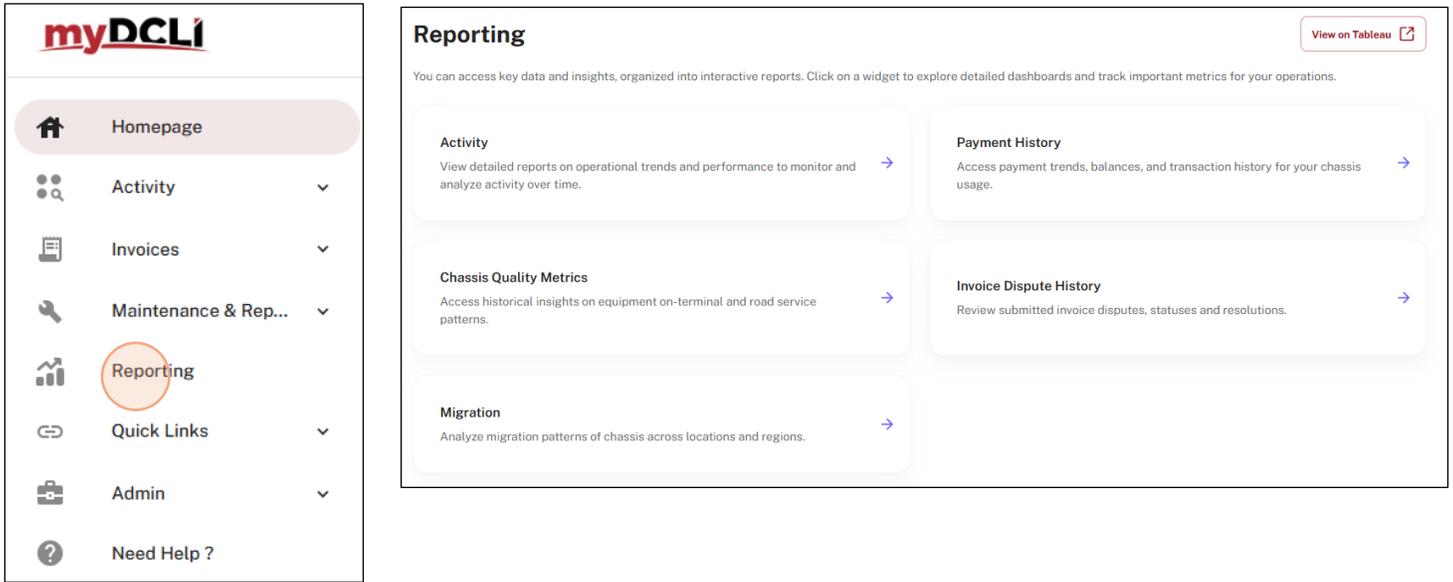

After entering your password, you will follow one of two possible login paths:

- 3a. **If your company uses Microsoft Entra**, you will be asked for your company/network password (not your legacy dcli.com password). Enter the password then click Sign in.

- 3b. **If your company does not use Microsoft Entra**, you will receive a multi-factor authentication email containing a code to confirm your identity. It will be sent from: myDCLI (via Microsoft). <account-security-noreply@accountprotection.microsoft.com> Enter the code you receive in the field indicated and click Sign in.

NOTE: If you want to save your credentials for a quicker login process, you can select to do that on the following "Stay signed in?" screen.

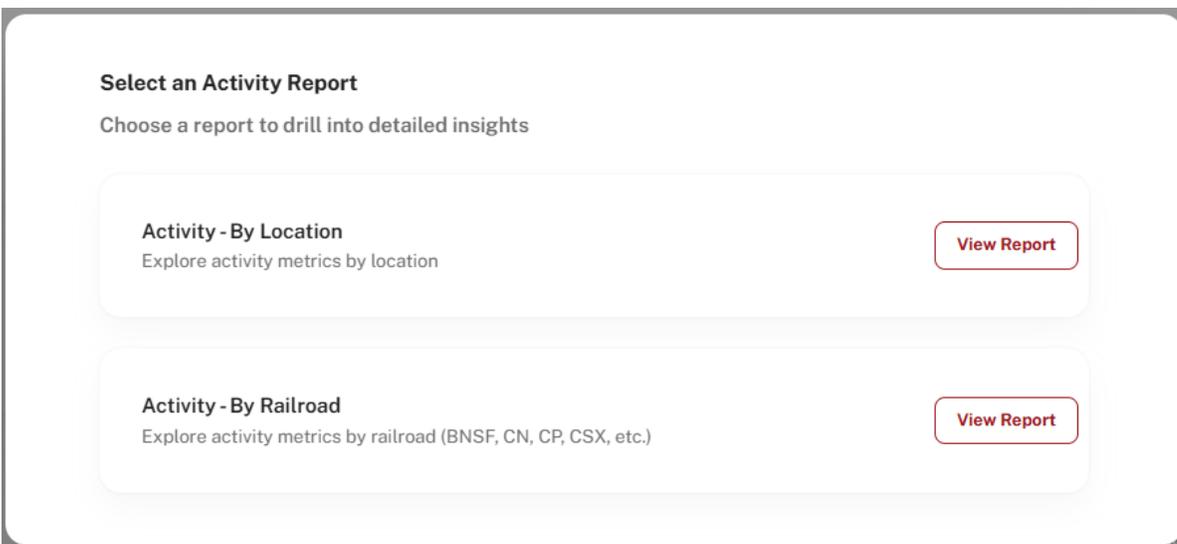

- Click on Reporting in the left-hand navigation. You will be presented with a menu of report options that give you access to key data and insights about your DCLI business, organized into interactive reports..

NOTE: If you have a Tableau login from DCLI, you can view these reports in that environment by clicking on the "View on Tableau" button above the report tiles.

Activity Report

- On the Reporting page, click on the Activity tile then choose to view your chassis activity By Location or By Railroad.

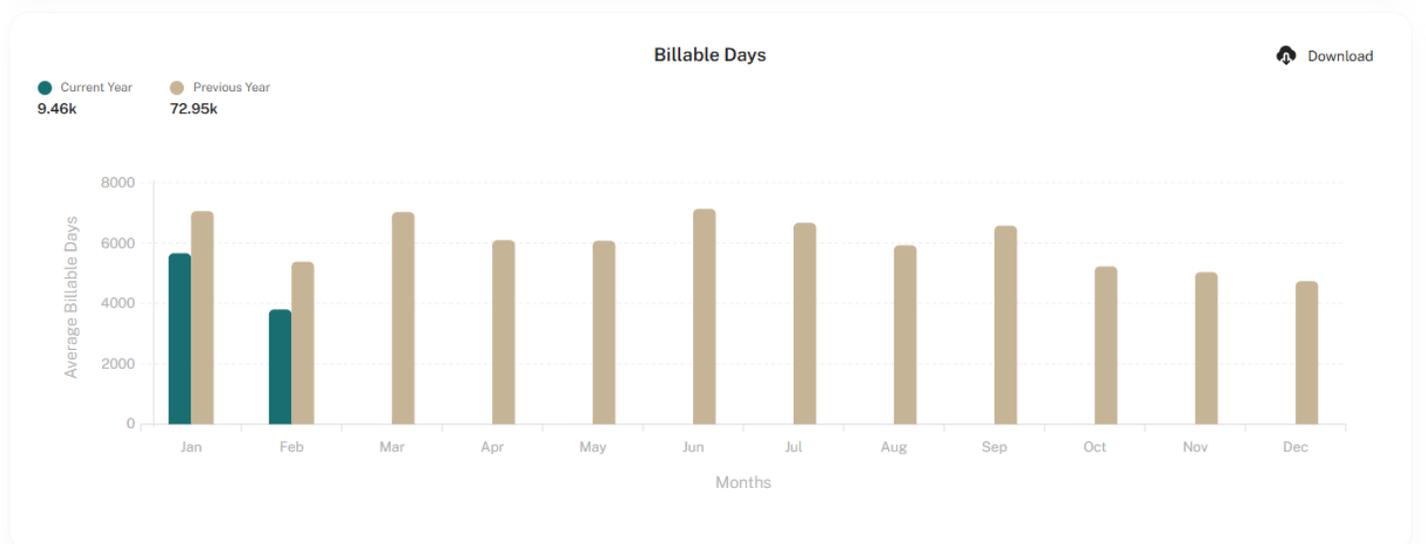

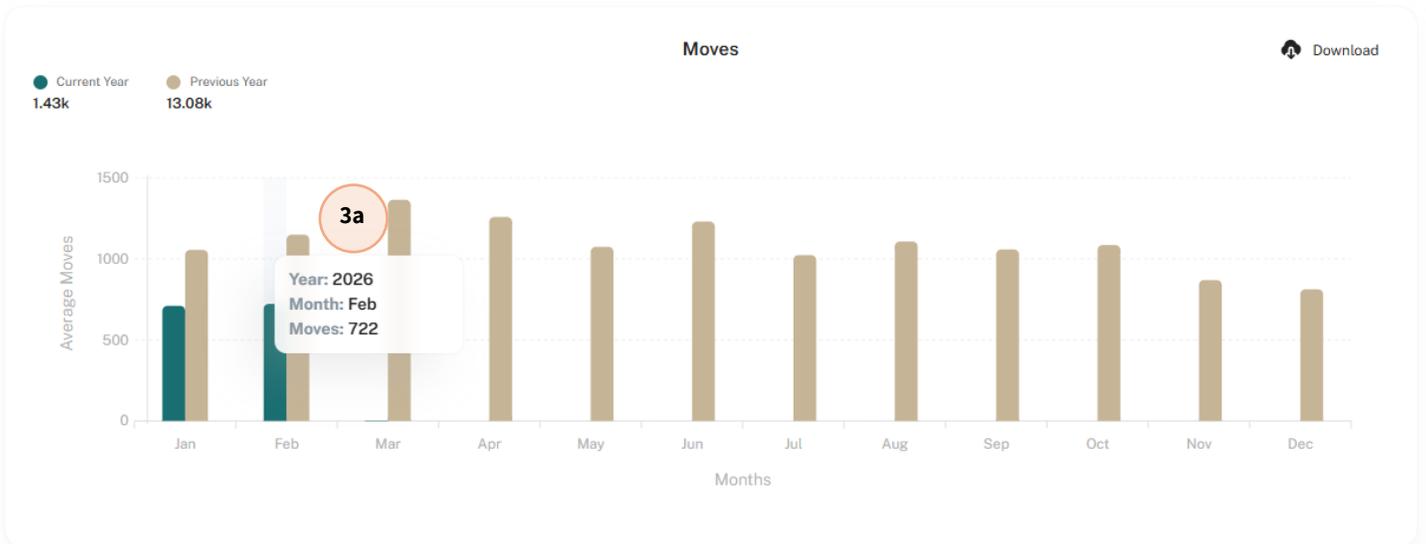

- In the Activity by Location report, you can filter the results by Region, Metro, or Location.

- In the Activity by Railroad report, you can filter the results by Region, Metro, or Railroad.

3. Both Activity report types show your Activity trends for Moves, Dwell, and Billable Days for this year and the previous year.
 - a. You can hover over any bar in the graph to see the underlying data.
 - b. To download the information shown in a graph, click the Download link in the upper right corner. This will give you the option to download the chart as a PDF or the data in Excel.

Payment History Report

1. On the Reporting page, click on the Payment History tile.
2. The Payment History report shows your payment trends for each month for this year and the previous year.
 - a. You can hover over any bar in the graph to see the underlying data.
 - b. To download the information shown in the graph, click the Download link in the upper right corner. This will give you the option to download the chart as a PDF or the data in Excel.

Chassis Quality Metrics Report

1. On the Reporting page, click on the Chassis Quality Metrics tile.
2. The Chassis Quality Metrics report shows a rolling 12-month view of your roadability and road service events
 - a. You can filter your chassis quality metrics by region, metro area, railroad, and location.
 - b. You can hover over any bar in the graph to see the underlying data including the total number of events and the percent of total outgates for that month the number represents.
 - c. To download the information shown in a graph, click the Download link in the upper right corner. This will give you the option to download the chart as a PDF or the data in Excel.

Invoice Dispute History Report

1. On the Reporting page, click on the Invoice Dispute History tile.
2. The graph at the top of the Invoice Dispute History report shows a rolling 12-month view of your submitted invoice disputes, statuses, and resolutions.
 - a. You can hover over any bar in the graph to see the underlying data including the total amount of all disputes for that month and the dollar amounts in Pending, Rejected, and Credited statuses.
 - b. To download the information shown in the graph, click the Download link in the upper right corner. This will give you the option to download the chart as a PDF or the data in Excel.

Download

3. The table at the bottom of the page shows details about your submitted disputes.
 - a. The table defaults to 10 rows of data. Click the down arrow next to Rows per page at the bottom of the table to choose how many rows, up to 1000, you would like the display on each page. Use the left and right arrows to navigate between pages
 - b. You can search the table by transaction number or chassis number to find a specific dispute.
 - c. You can configure the table to match your preferences. Click the three dots next to each column heading to sort the data in that column or to pin or hide the column.
 - d. To further configure the table, select Manage columns then choose which columns of data you would like to see in the table.
 - e. To download the information shown in the table, click the Download link in the upper right corner. This will download the data from the table in Excel as a CSV file.
 - f. To manage your disputes, click the red Manage Disputes button in the upper right of the table. This link will open in a new browser window. See the How to Submit a Dispute guide for more information.

Migration Report

1. On the Reporting page, click on the Migration tile then choose the Migration Summary or Migration Details report.
2. The Migration Summary report shows bi-directional chassis migration patterns and net totals between two locations.
 - a. The table defaults to 10 rows of data. Click the down arrow next to Rows per page at the bottom of the table to choose how many rows, up to 1000, you would like the display on each page. Use the left and right arrows to navigate between pages
 - b. You can filter the table by date to show either the current month or the previous month.
 - c. You can filter the table by metro area using the Metro A and Metro B dropdown lists and select a specific city for one or both migration end points
 - d. You can configure the table to match your preferences. Click the three dots next to each column heading to sort the data in that column or to pin or hide the column. You can also filter the data in each column.
 - e. To further configure the table, select Manage columns then choose which columns of data you would like to see in the table.
 - f. To download the information shown in the table, click the Download link in the upper right corner. This will download the data from the table in Excel as a CSV file.
